Write your answers on your answer sheet. (1.5 pts)

Many people still believe that natural resources will never be used up. Actually, the world's resources are limited. Nobody knows exactly how much fossil fuel is left. However, we should use them economically and try to find out alternative source of energy. According to Professor Marvin Burnham of the England Institute of Technology, we have to start conserving coal, oil and gas before it is too late and nuclear power is a potential alternative.

However, many people do not approve of using nuclear power because it is dangerous. What would happen if there were a serious nuclear accident? Radioactivity causes cancer and may badly affect many future generations.

Therefore, while scientists are trying to find out other sources of energy, the most important thing for us to do now is to use our natural resources as economically as we can.

1. Natural resources will never run out. _____
2. We don't know exactly how much fossil fuel is left. _____
3. According to Professor Marvin Burnham, solar energy will be one of the alternatives to fossil fuels. _____
